Observations & Insights

1 / Observation: People are often uncomfortable in chairs beyond short periods of time whether they wait in a welcome area, when they work in small groups, they attend meetings, conferences or taking part in a training session.

Insight: Those spaces should provide comfortable chairs to keep people focused and engaged.

2 / Observation: Chairs for workspaces aimed to be used for work in pairs, formal meetings, conferences or trainings do often not reflect the design of the rest of the companies workspaces design.

Insight: There is a better visual harmony if the visitor/meeting chairs offer an integrated design that complies with the remaining modern furniture among the entire company.

3 / Observation: Companies need to optimise the use of meeting spaces, but reconfiguring furniture often takes time.

Insight: There is a need for a versatile and flexible seating solution that is easy to install and can be moved around and stacked easily.

Eastside Make the right impression

Workspaces for collaboration require highly flexible seating that is easy to reconfigure and, above all, comfortable.

The Eastside chair was designed to provide comfort in collaborative spaces and welcome areas. It offers high performance versatility with good looks.

Why Eastside?

1 – It offers **comfort over varying periods of time** due to its deep seat and high backrest.

2 – Eastside is highly flexible solution that feels at home in any space - **conferencing, training, teaming in small groups and welcome areas**. Equally, it also matches to our tasking chair range and can be used as a visitor chair thanks to its elegant and modern design.

3 – This chair helps to optimize space due to the ease with which it can be stacked and moved.

Elegance & comfort

Eastside Air creates a sleek and stylish working environment for cutting-edge global businesses. The velvet touch of the fabric offers a nice sensation, keeping individuals relaxed.

Individual space
Eastside Air sled base with FrameOne Loop desk, FlexBox storage units and Reply Air task chair.

Collaborative space
Eastside Air 4-legs with Kalidro Conferencing table.

Alternative innovations in Eastside Air take customised comfort to another level. **It automatically and exactly adjusts to support an individual's spinal print.** The tension of the mesh, and therefore the support it provides, adjusts according to the force placed on the backrest by the user.

Complete with handle for easy movement, Eastside Air is the ultimate seating answer for any meeting room.

Collaboration & space optimisation

Configuring a room for **conferences, training or presentations** needs seating that is **robust, effective – and looks good**. Eastside is that chair.

Collaborative work
Eastside 4-legs with writing tablet.

Small group meeting
Eastside 4-legs with TouchDown2 table, Mobile Element flip-chart and pin boards.

As it can be moved easily, it is ideal for supporting collaborative work. **Eastside is excellent for optimising space** use as it can be stacked and stored effortlessly.

Eastside is stackable up to 6 chairs in 4-legs and sled base versions.

Reception and waiting room

Ideal for your reception areas or waiting rooms, Eastside Beam comes in 2 to 4 chairs, with or without armrests, with a tablet as an option. For heavily used areas, the plain back version and Softex upholstery are easy to clean.

Eastside Beam with 2 seaters and tablet.
