Kalidro

Essentials for an inspirational workday

Kalidro is an all-in-one workstation for the essential demands of today's office. If you find you're constantly sacrificing desk space to piles of papers and tangles of trailing wires, Kalidro has the features you need to manage your things. It keeps your workspace – and your headspace – completely clear to concentrate on what you need to do.

What's more, Kalidro is really **easy to set up** thanks to **intuitive features** like **height adjustment and smart cable management**. That means you can configure it exactly to your needs so you're **comfortable** and productive all day; and when you switch tasks, you can quickly reconfigure Kalidro without interrupting your workflow.

While Kalidro inspires your day at work, others will be inspired by Kalidro's good looks. **Elegant and understated**, and available in a wide range of options, Kalidro enables you to build a desk that works for your style as well as your activity.

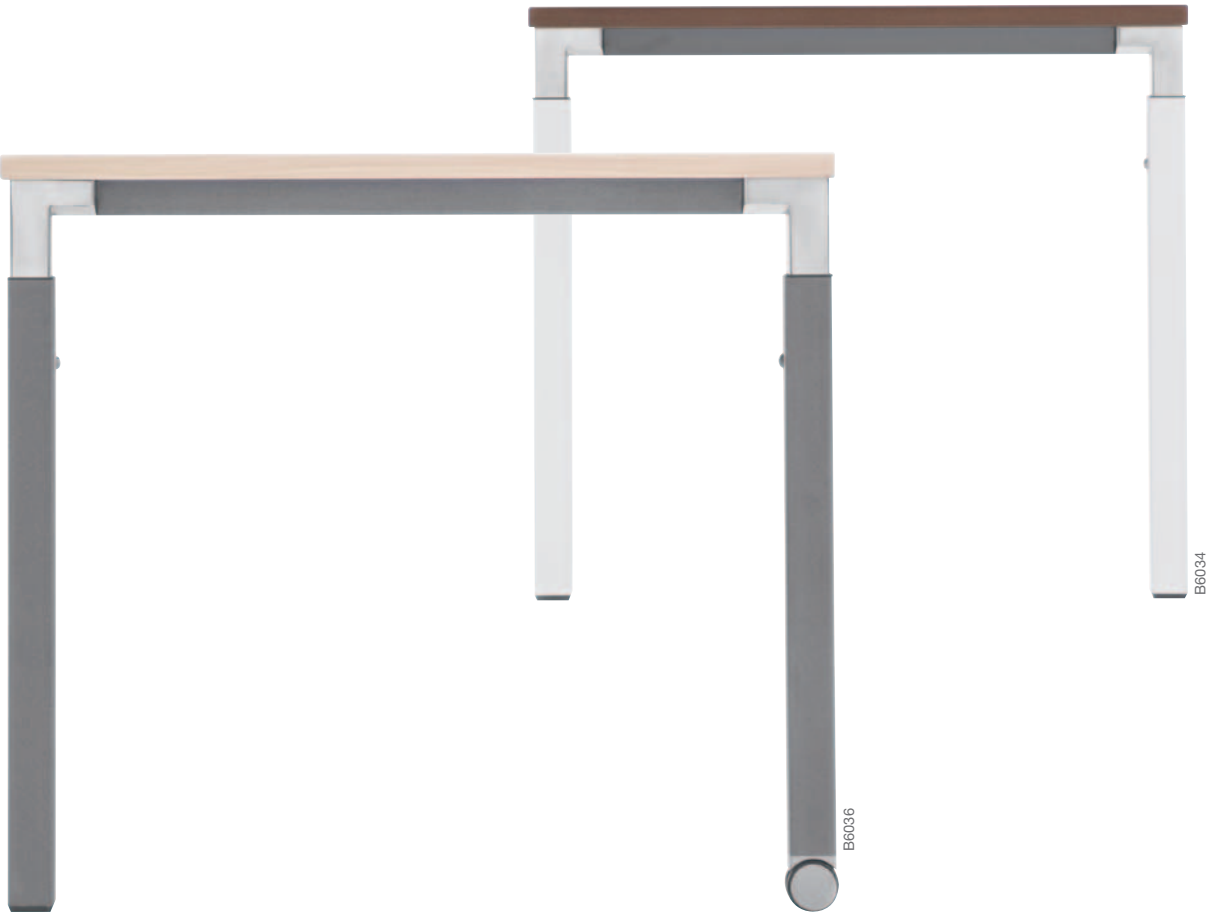

B6052

The beauty of simplicity

Kalidro is beautiful to look at, with a **simplicity of design** that is pure elegance. Kalidro and its co-ordinating accessories are available in a wide range of colours and finishes, from modern fresh white to classical wood effects, so you can match your Kalidro to **your style**.

Kalidro on your own

Kalidro's accessories and adjustable height settings make it the perfect individual workstation. It takes a matter of moments to select the setup that's most comfortable and convenient for your work style.

Kalidro with others

Kalidro's many shapes and configuration options allow you to organise your workspace according to the needs of a team. Castors on the legs take away the hard work when you need to reshuffle for impromptu meetings throughout the day.

Kalidro with **FlexBox** storage and **Please** task chair.

Kalidro with **Moby** storage and **Please** task chair.

Kalidro Call centre

Kalidro's versatility also allows you to plan a private space using screens. It's an easy way to create a separate zone for individual activities such as manning a call centre.

Call centre

Kalidro Meeting

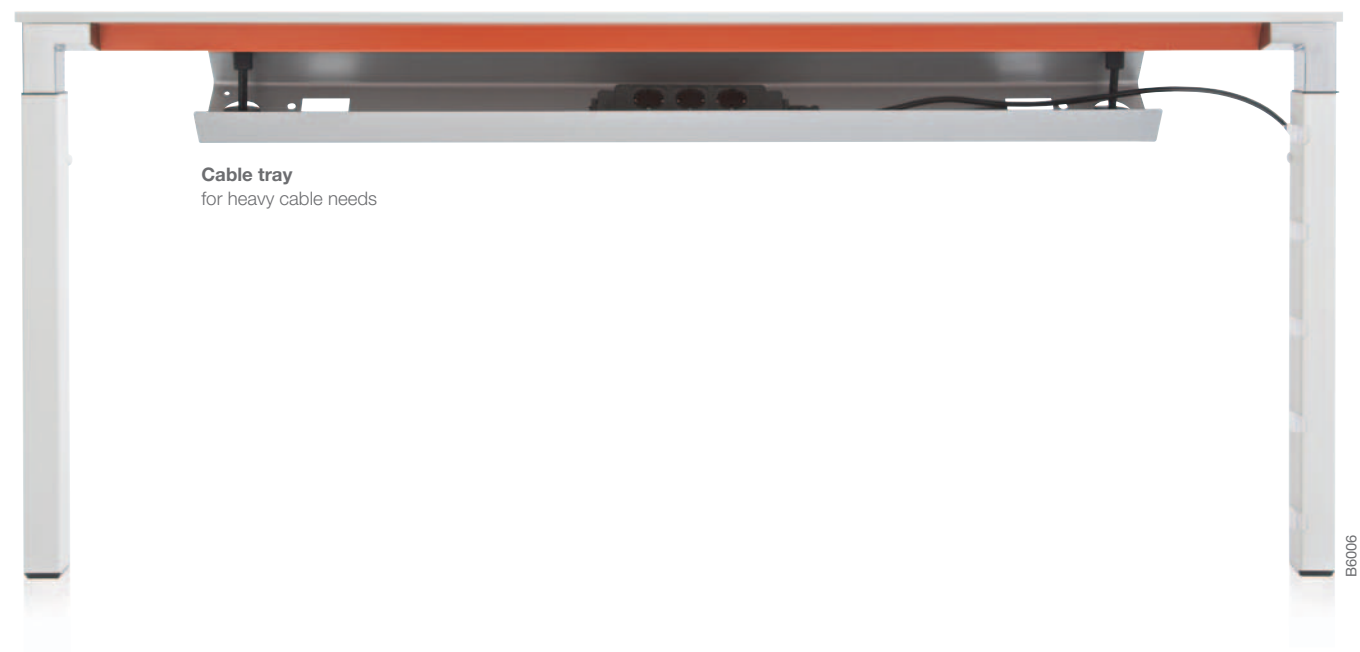

Banish those boardroom blues. Put together two or more Kalidros to add a touch of freshness to your meeting room and a dash of inspiration to your meetings.

Cable management that works for you

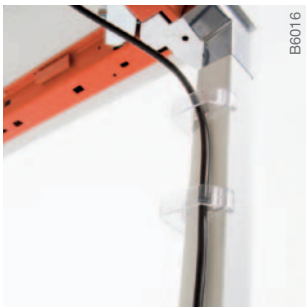

Cable management is important. A wire-free workstation not only creates more space, it improves your productivity because there’s nothing to get in the way of your workflow. That’s why no matter what you ask of cable management, Kalidro has the answer.

If your cable needs are minimal, use simple cable brackets on the underside of the desk to hold power units in place and leg cable clips to run wires to the ground.

Cable carriers under desktop.

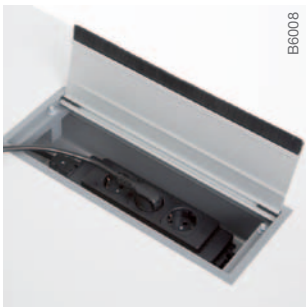

Cable clips, translucent plastic, attached to leg.

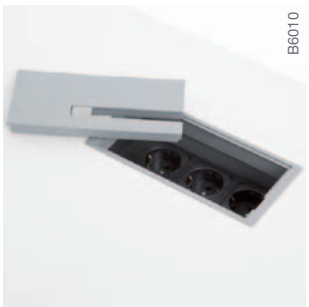

Get powered up. The cable outlet box provides convenient access to power at desk level, which means you don't have to search around or bend down to get connected. Two different types are available.

Cable outlet large, only in conjunction with cable tray.

Cable outlet small.

Which Kalidro answers **your needs**?

It's effortless to build the Kalidro that works for you because it's so simple to set up and easy to adjust. With so many options to choose from, there's bound to be a configuration that suits both your work style and your sense of style.

Kalidro environmental performance

You need clear evidence to support your environmental credentials. We can provide it.

Thanks to the Life Cycle Assessment (LCA) method, Steelcase can quantify the product's environmental impacts to set the stage for further improvements. This method, based on ISO 14040 and 14044, is selected by the European Union for environmental evaluation. It allows us to measure the environmental impact of our products throughout their lifecycle: materials extraction, production, transportation, use and end of life. The results are published in an Environmental Product Declaration (EPD). Ask for Kalidro's EPD to find out about its environmental impacts (CO₂ emissions, waste, etc...).

End of life

Kalidro is **99%** recyclable by weight and its packaging materials are 100% recyclable.

40% of the EPP corners used for packaging are reused.

Kalidro can be integrated into the Steelcase Environmental Partnership Program, which is designed to ensure environmentally responsible after-use strategies for furniture.

Use

Designed for a long product life.

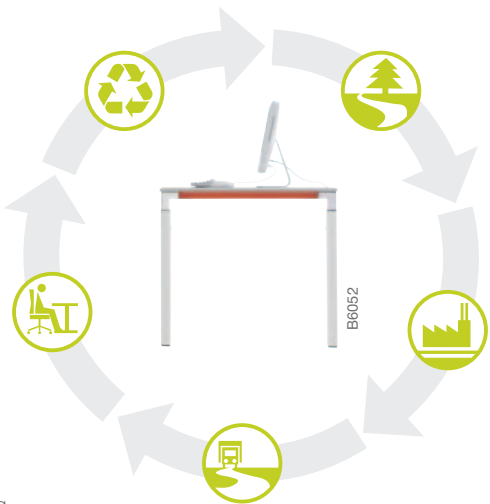

The particle board is E1-certified for low emission formaldehyde.

Maintenance information is available on steelcase.com

Transport

Manufactured close to customers in Europe.

Minimised packaging weight and volume to improve filling rates and save energy for shipping.

Materials

Kalidro is made of **34%** recycled materials.

PVC-free.

Recycled cardboard and recycled LDPE film (Low Density Polyethylene) in packaging.

Water-based inks without solvent on packaging.

The legs' corners are made of 100% recycled aluminium.

The thickness of the desktop has been reduced by 25% (from 25 to 19mm) without compromising its performance.

Production

ISO 14001/ EMAS certification of the Rosenheim site (Germany).

No gluing processes/water-based glue.

The powder coat painting that does not attach to the product is reused in the painting process.

You require official certifications. We can deliver them.

Environmental Product Declaration (EPD). Based on ISO/TR 14025, its purpose is to communicate precise and verifiable information about a product's impact on the environment at all stages of its life cycle.

Indoor Advantage. This certification is awarded to products complying with the indoor air quality emission requirements defined by the ANSI/BIFMA M7.1-2007 standard.

Blauer Engel. This German environmental certification is awarded to products with a low environmental impact.

PEFC. The wooden components are PEFC certified (Programme for the Endorsement of Forest Certification), ensuring that wood originates from sustainably managed forests.

E1. The particle boards comply with the "E1 standard" guaranteeing a low level of formaldehyde emissions.

You care about the end of use of your furniture.

We offer options - be it refurbishing, take-back, charitable donation or recycling.
