

A PERFECT FIT.

Leap Plus and 24/7 chairs offer all the benefits, aesthetic appeal and functionality of Leap with support for users up to 230Kg with Leap Plus and outstanding durability for use 24 hours a day with Leap 24/7. It's all thanks to Leap's advanced design with innovative features such as a flexible backrest, separate upper and lower back controls and a dynamic seat.

DEVELOPED BY STEELCASE DESIGN STUDIO

FULLY ADJUSTABLE

The eight independent adjustments offer support through the full range of dynamic seating postures: upright, reclined and forward. Diagrams and an explanation of how to use each adjustment are available under the chair's right armrest.

OUTSTANDING DURABILITY WITH LEAP 24/7

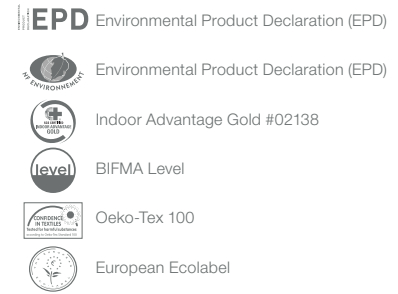

British Standard regulation BS5459: Leap 24/7 is suitable for use 24 hours a day, and for people weighing up to 150kg (33% more weight and up to 3 times as long for uninterrupted sitting periods compared to the European Standard EN1335).

Leap 24/7's hard-wearing fabric is highly resistant, rated at 200 000 and 500 000 Martindale (Standard fabric: 50 000 Martindale).

SUSTAINABILITY

Designing for the environment requires innovative thinking and solutions.
