INTUITIVE ACCESS TO POWER AND DATA.

DEVELOPED BY STEELCASE DESIGN STUDIO

Today's habits of mobile working require more and more laptops and cell phones. Power and data access needs to be easy and intuitive. That's why Steelcase developed an integrated solution.

INTUITIVE ACCESS TO POWER AND DATA.

Its clever mechanism will surprise the user thanks to soft opening and closing. Integrated Top Access allows you to move your computer away easily with no obstacle in order to perform another task (flush and cables coming out of the back).

- Closed: It maximises the use of the worksurface.

- It matches with the finish of the desktop to remain discreet.

- Open: Instant and smooth access to power and data.

- Available as an option on most Steelcase desk and Bench ranges.

STATEMENT OF LINE

Integrated Top Access

SUSTAINABILITY

Designed by Steelcase, Integrated Top Access is made in Wittelsheim, France, then assembled to our desks in Rosenheim, Germany, for the EMEA (Europe, Middle East and Africa) market.

Sustainability actions and results are annually communicated in the annual Steelcase Corporate Responsibility report. Visit steelcase.com to discover more about Steelcase's unique ecodesign strategy.
