

Since 1912, Steelcase has made a meaningful and measurable contribution to the **success of our customers**. We do this using in-depth knowledge of work and work processes as a basis for creating a **better work experience**. We make this possible by offering a wide range of **quality office furnishing solutions** and support that customers can always rely on, no matter where in the world they are.

We add **measurable value** by understanding how people work and serving them through our **unmatched global network**.

**Sustainability** is embedded in everything we do. This has made us the **preferred partner** for many of the **world's best companies**.

Kalidro  
Kalidro

Kalidro – Essentials for an inspirational workday

**Steelcase**

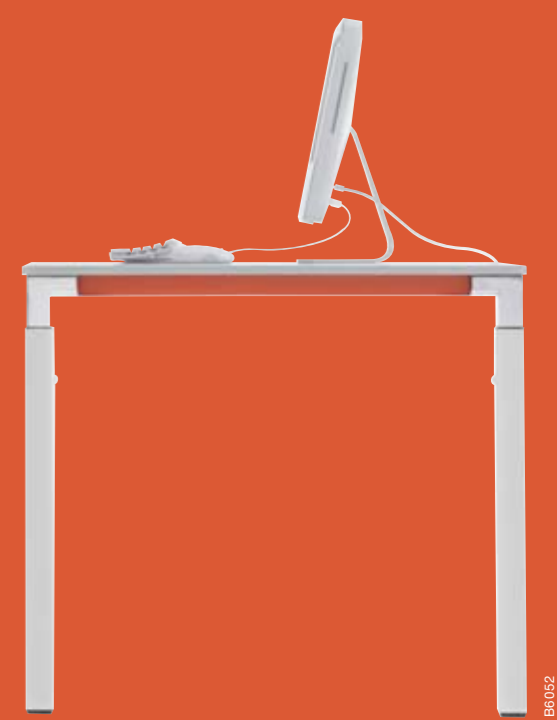

# Kalidro

Kalidro is an all-in-one workstation for the essential demands of today's office. If you find you're constantly sacrificing desk space to piles of papers and tangles of trailing wires, Kalidro has the features you need to manage your things. It keeps your workspace – and your headspace – completely clear to concentrate on what you need to do.

While Kalidro inspires your day at work, others will be inspired by Kalidro's good looks. **Elegant and understated**, and available in a wide range of options, Kalidro enables you to build a desk that works for your style as well as your activity.

What's more, Kalidro is really **easy to set up** thanks to **intuitive features** like **height adjustment and smart cable management**. That means you can configure it exactly to your needs so you're **comfortable** and productive all day; and when you switch tasks, you can quickly reconfigure Kalidro without interrupting your workflow.

Kalidro – Essentials for an inspirational workday

# Kalidro

The beauty of simplicity

Kalidro is beautiful to look at, with a **simplicity of design** that is pure elegance.

Kalidro and its co-ordinating accessories are available in a wide range of colours and finishes, from modern fresh white to classical wood effects, so you can match your Kalidro to **your style**.

B6050

**Kalidro on your own**

Kalidro's accessories and adjustable height settings make it the perfect individual workstation. It takes a matter of moments to select the setup that's most comfortable and convenient for your work style.

B6005

B6045

**Kalidro with others**

Kalidro's many shapes and configuration options allow you to organise your workspace according to the needs of a team. Castors on the legs take away the hard work when you need to reshuffle for impromptu meetings throughout the day.

**Versatility that works for call centres**

Kalidro's versatility also allows you to plan a private space using screens. It's an easy way to create a separate zone for individual activities such as manning a call centre.

B6044

B6031

**Banish those boardroom blues**

Put together two or more Kalidros to add a touch of freshness to your meeting room and a dash of inspiration to your meetings.

at work

**Easy**  
to assemble

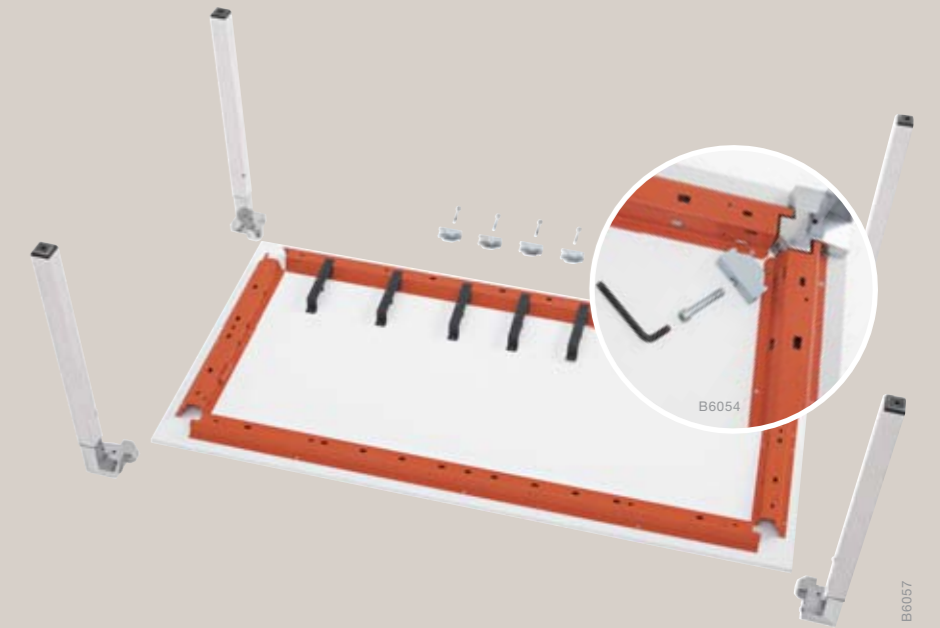

**Simple**  
to adjust

680mm  
to 760mm

**Easy to assemble**

Kalidro is very easy to assemble. The frame and top are already fixed together, so all you have to do is attach the legs and select the desk height that works for you.

**Simple to adjust**

Kalidro is height adjustable from 680 to 760mm. It's quick and easy to do – just grab the height adjustment tool that's stored in the frame and loosen the screws on each leg. Check the height is even using the height markers on the legs.

# Cable management that works for you

Cable management is important. A wire-free workstation not only creates more space, it improves your productivity because there's nothing to get in the way of your workflow. That's why no matter what you ask of cable management, Kalidro has the answer.

If your needs are more demanding, the cable tray will take care of a larger number of wires.

Cable carriers under desktop

If your cable needs are minimal, use simple cable brackets on the underside of the desk to hold power units in place and leg cable clips to run wires to the ground.

Leg cable clips

## Get powered up

The cable outlet box provides convenient access to power at desk level, which means you don't have to search around or bend down to get connected. Two different types are available.

The cable outlet box can be closed when not in use

# Which Kalidro answers your needs?

It's effortless to build the Kalidro that works for you because it's so simple to set up and easy to adjust. With so many options to choose from, there's bound to be a configuration that suits both your work style and your sense of style.

## Kalidro's environmental performance

Kalidro is a more sustainable product with a reduced environmental impact. Like for any other Steelcase product, during Kalidro's development process we considered the environmental impact of our decisions at **every stage of the product's lifecycle** - from materials extraction, production, transportation, use and re-use, to end of life. The Life Cycle Assessment (LCA - ISO 14044) method helped us **create a more sustainable product** by measuring and reducing the environmental impacts, and thus **avoid the transfers of pollution** from one stage to another or from one country to another.

B6013

B3152

34%

**Kalidro is made of 34% recycled materials**

### Corner elements: 30% less impact

The legs' corners are made of 100% recycled aluminium. This leads to a 30% reduction of impacts on Global Warming on the whole life-cycle, compared to the use of primary aluminium.

B6205

### Desktop: 25% less wood

The thickness of the desktop has been reduced by 25% (from 25 to 19mm) without compromising its performance.

B6205

### Legs: 25% less impact

The legs tubes are made of powder painted steel. This leads to a 25% reduction of impacts on Global Warming on the whole life-cycle, compared to the use of anodised primary aluminium.

B6205

99%

### Kalidro is 99% recyclable

Kalidro is 99% recyclable by weight and its packaging materials are 100% recyclable. 40% of its packaging corners are reused. Kalidro can be integrated into the Steelcase Environmental Partnership Program, which is designed to ensure environmentally responsible after-use strategies for furniture.

Lowest

### Kalidro has negligible environmental impact during use

No significant environmental impact occurs during the usage lifetime of Kalidro, the longest stage of its lifecycle. The particle board is E1-certified for low emission formaldehyde.

Packaging

### Kalidro uses less packaging

Kalidro's minimised weight and volume improves packing filling rates and reduces the energy required for shipping.

150 tons

**of CO<sup>2</sup> emissions avoided during Kalidro's production**

### Waste management

Wood waste from desktop cutting is used to heat part of the plant, saving 40 tons of natural gas and reducing related emissions of CO<sub>2</sub> by 150 tons per year. Processing of the steel frame tubes produces no waste.

### Energy and materials savings

Powder painting is free of volatile organic compounds (VOC-free) and heavy metals; paint that does not attach itself to the product is reused.

### Certified production sites

The production site in Rosenheim (Germany) is fully ISO 14001- and EMAS II-certified.

With Kalidro we can provide:

**Environmental Product Declarations (EPD).** Based on the ISO 14025, its purpose is to communicate clear and transparent information about a product's impacts on the environment at all stages of its life cycle.

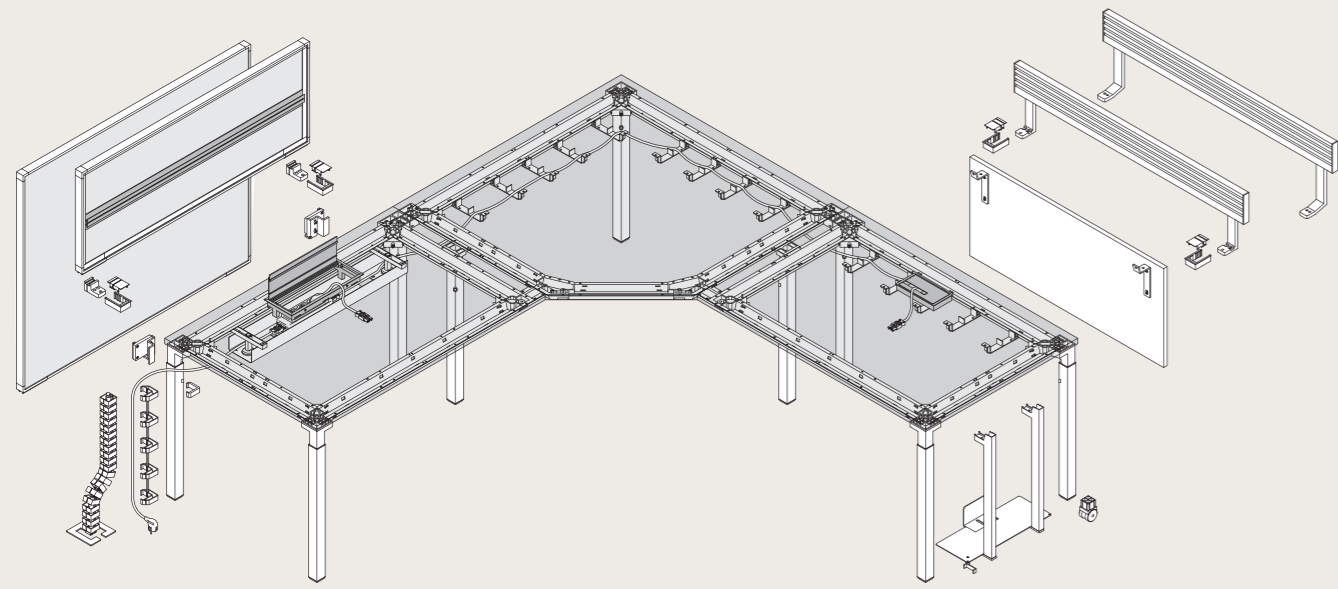

**Blauer Engel.** Kalidro complies with the German environmental certification "Blauer Engel".

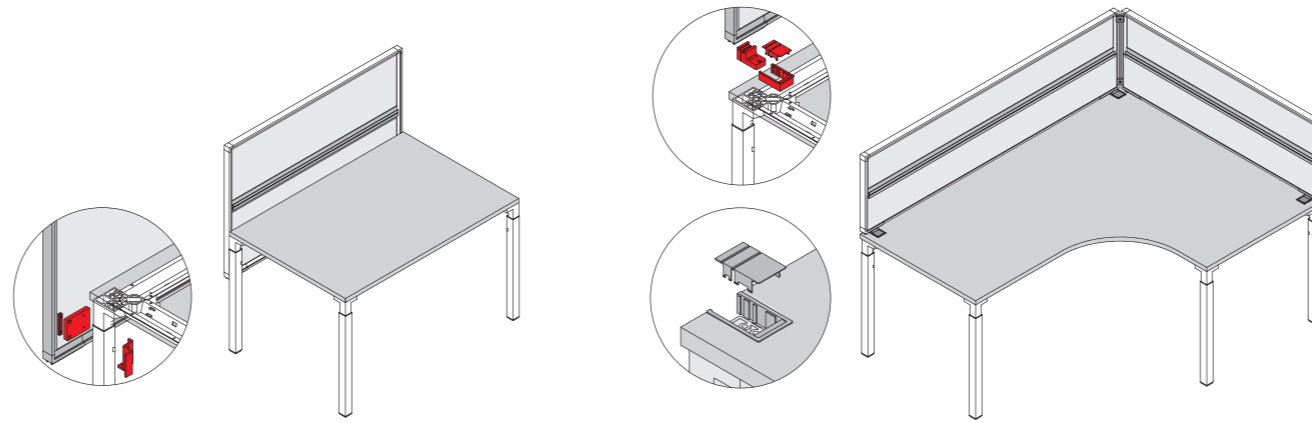

**PEFC.** The wooden components of Kalidro are labelled with PEFC (Programme for the Endorsement of Forest Certification).
