Movida Fun, simple and smart

Movida is a tool you'll love. Rounded and welcoming, it's **available in a range of fun colours**. Movida looks and feels great in the workplace, adding a touch of inspiration to your environment.

Movida is simplicity itself. A flexible workstation with an adaptive design, created from just a few components. It **will fit any application you ask of it** – while getting the most out of your office space.

Movida is a smart workstation that organises cables and today's essential tools. Above all, it's **an affordable workstation that fits a budget**.

Planning is simple with **Movida**

Movida allows two people to **link desks and work together** without losing their personal space. Provide your people with a short or full-length screen or simply with a double tidy tray depending on the level of interaction they need.

Movida Straight Top with shared legs, screen and cable net.

A large workspace within compact dimensions

Movida's compact corners are perfectly adapted for flatscreen monitors. They're smooth, rounded, **comfortable** to use and take up less space than standard desktop corners.

Movida Compact Corner with tidy tray, screen and modesty panel.

Storage options

Movida's spacious worktop provides plenty of storage options, both on top and underneath, thanks to its **compatibility with all Steelcase storage ranges**.

Movida with Universal Pedestals and Let's B task chair.

Juxtaposed pedestal

Supporting pedestal

Management and **Welcome** areas

Create an office fit for a **manager** with defined areas for welcoming and working. Play with **colour and wood finishes** to create the effect you desire.

Movida Desk and Conferencing in combination with Amia task and visitor chairs.

Use dedicated desktop shapes and Movida's reception counter to **give your guests a warm welcome**.

Conferencing

Create a **conference or meeting room** in the same style as your office with just six basic desktops. Make your choice between wood or Protech finishes.

Movida Conferencing in combination with Moby Catering and Think task chairs.

Movida has an **In & Out** neat connectivity that allows easy access to power and data at table level.

Designed to **share**

Movida is constructed from the smallest possible number of components so it's **easier and more affordable to manage**. Plus Movida is specially designed to share elements between workstations, creating customised workspaces that fit even the smallest of budgets.

B2848

B2837

B2849

Two or more desks can share legs, screens and cable management to increase efficiency per workstation and be **more cost effective**.

C0676

Height adjustable leg
Manual regulation
from H680 – H820mm

C0633

Fixed leg
H730mm
with levelling glides

Designed with **your tools in mind**

From a permanent configuration with a PC and flatscreen monitor, to a mobile laptop, each of the tools we rely on every day has been carefully studied for **better user comfort and easier IT maintenance**.

B2850

Power sockets are right where you need them for laptops and PDAs yet hidden from direct view.

B2851

The **CPU holder** is located in the optimal position to avoid interfering with leg space, with a rail for fine-tuning the position.

B2852

The **cable net**: for light cable management needs, the net is economic and effective.

D0627

The **cable channel**: for more sophisticated cable needs, the metal tray retains the cables against the top and prevents overflow.

Movida's environmental performance

You need clear evidence to support your environmental credentials. We can provide it.

Thanks to the Life Cycle Assessment (LCA) method, Steelcase can quantify the product's environmental impacts to set the stage for further improvements. This method, based on ISO 14040/14044, is selected by the European Union for environmental evaluation. It allows us to measure the environmental impact of our products throughout their lifecycle: materials extraction, production, transportation, use and end of life.

The results are published in an **Environmental Product Declaration (EPD)**. Ask for **Movida**'s EPD to find out about its environmental impacts (CO_2 emissions, waste, etc).

End of life

Up to 97% recyclable by weight.

100% recyclable cardboard and LDPE film for packaging.

Quick and easy disassembly.

Plastic parts clearly labelled for easy sorting and effective recycling.

Use

Designed for a long product life.

Maintenance information is available on steelcase.com

Transport

Manufactured close to customers in Germany.

Minimised packaging weight and volume to improve filling rates and save energy for shipping.

Materials

35% recycled content by weight.

PVC-free.

45 to 100% recycled cardboard and 10% recycled LDPE film (Low Density Polyethylene) in packaging.

Water-based inks without solvent on packaging.

Production

ISO 14001/ EMAS certification of the Rosenheim site.

Powder coat painting: VOC-free and free of heavy metals. The powder coat painting that does not attach to the product is reused in the painting process.

You require official certifications. We can deliver them.

EPD **Environmental Product Declaration (EPD)**. Based on ISO/TR 14025, its purpose is to communicate precise and verifiable information about a product's impact on the environment at all stages of its life cycle.

"NF Environnement" certification. Based on ISO 14024, this French voluntary certification mark is awarded to products that have a reduced effect on the environment.

Indoor Advantage. This certification is awarded to products complying with the ANSI/BIFMA standards on indoor air quality.

PEFC. The wooden components are PEFC certified (Programme for the Endorsement of Forest Certification), ensuring that wood originates from sustainably managed forests.

E1. The particle boards comply with the E1 standard guaranteeing a low level of formaldehyde emissions.

You care about the end of use of your furniture

We offer options - be it refurbishing, charitable donation or recycling.
