

Partito Rail and Shelf

A smart solution for vertical organisation and visual separation

Why Partito Rail and Shelf?

Thanks to Partito Rail and Shelf, users can make better use of vertical space. They enhance organisation while creating a balance between privacy and collaboration.

It's a time saving and efficient storage solution for the user: everything close at hand.

Partito Rail offers a huge choice of finishes and colours. In combination with the 1+1 Organisation tools, the user can personalise his or her desk.

Insights

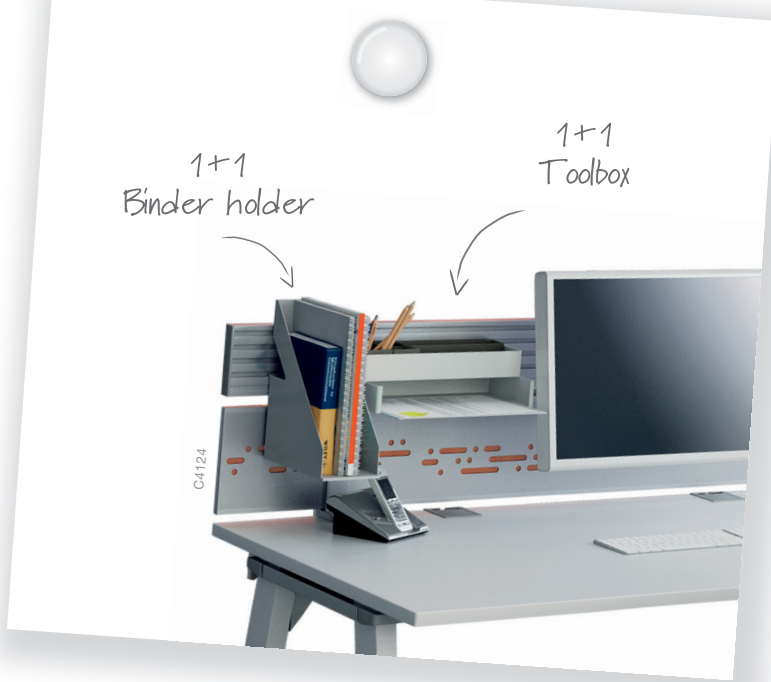

Footprints are shrinking, user need more vertical organisation to expand their workstation.

Users need a place for personalisation and territoriality.

Partito Rail compatible with any Steelcase desking range.

Steelcase

Vertical organisation and personalisation:

Partito Rail and Partito Shelf help to make better use of vertical free space and increase the workstation area. They create virtual boundaries between users without isolating. Thanks to different types of infills, users can personalise their own workplace.

Structural:

Compatible with 1+1 Organisation tools, Partito Rail and Partito Shelf are structural enough to hold several tools such as heavy binders and flat screen arms (up to 40kg in total).

Flexible and transversal

The Partito Rail can be used on any desk thanks to universal C-clamps.
